DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10 August 2005 has been entered.

Allowable Subject Matter

Claims 1 – 17 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding Claims 1 and 12, as shown in the previous office action dated 20 April 2005, the combination of Jaffe (U.S. Patent 5,781,461) in view of Anonymous (Research Disclosure 371051) disclose or make obvious all elements of claims 1 and 17. Applicant has added the limitation of wherein the first and second output data streams are used to simulate the input audio signal propagating through an environment by a first path associated with the first output data stream and a second path associated

Art Unit: 2644

with the second output data stream. The prior art does not disclose nor make obvious this limitation. As such, the claims are determined to be allowable over the prior art.

Claims 2 – 11 and 13 – 17 are allowable based upon their dependency of the independent claims 1 and 11 which are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
